

# NESARA

## The National Economic Stabilization and Recovery Act

### A Practical Solution to America's Problems

Had enough bad news lately? A dip in the economy, layoffs and cutbacks, uncontrollable public and private debt, a government insensitive to your problems, insufficient progress on environmental issues, unfair distribution of taxes, a continuing adverse balance of trade, high paying industrial jobs transferred overseas, troubled outlook for the future, the rich getting richer while the poor struggle to make ends meet.

## Imagine Legislation That

- |   |  |
|---|--|
| ✓ Terminates or drastically reduces mortgage debt               | ✓ Reduces urban sprawl by restoring inner cities as vital economic areas |
| ✓ <b>Promotes universal home ownership</b>                      | ✓ Restores high-paying productive jobs                                   |
| ✓ Provides a secure future for all                              | ✓ <b>Restores financial privacy</b>                                      |
| ✓ Increases benefits to senior citizens                         | ✓ Eliminates inflation   |
| ✓ <b>Replaces the income tax with a fair tax</b>                | ✓ Provides \$500 billion for new public works projects                   |
| ✓ Eliminates bank failures                                      | ✓ Improves the balance of trade  |
| ✓ Eliminates trillions of dollars of public and private debt    | ✓ <b>Enables single parents to support their families</b>                |
| ✓ Returns control of the currency to the people                 | ✓ Provides new banking rules that are equitable and fair to all          |
| ✓ <b>Benefits Americans with an unprecedented economic boom</b> | ✓ Doubles the average standard of living                                 |

Too good to be true? No more than warm summer days, cool nights, good friends and chocolate. The solutions proposed in NESARA, The National Economic Stabilization and Recovery Act, have been available to politicians in Washington for 10 years. Some members of Congress say privately that they will endorse the plan just as soon as the public demonstrates adequate support. Okay, let's take them at their word with a plan as simple as 1-2-3.

1. Study the details of this straightforward plan at <http://www.nesara.org>
2. Contact your public servants in Washington and ask them where they stand on NESARA's various proposals.
3. Support public discussions of NESARA, on the world wide web and through the national media.

### The good news

**There are practical solutions for those bad news problems. Check it out!**
